

BRAIN STORMING

1

STEP

open Google my business on chrome and login to create new profile . First we need to set a name for the company

2

STEP

Thereby we need to choose the category. And we need to fill the address portion

3

STEP

And we need to set the exact location on the map. And provide a valid mobile number for the customer to contact.

4

STEP

Ans we need to get verified business account

5

STEP

Thereby we should provide the details of service we are providing. And then we need to choose the working days and time .

6

STEP

At last we need to add photos that are taken in the company
